CONTENTS

1	Introduction	3
2	Installation	5
2.1	Install Via Pip(recommended):	5
2.2	Install from Source(Unreleased):	5
3	Usage	7

INTRODUCTION

Discord Rss Bot is python package that allows you to create a discord bot that will post rss feeds to a discord channel.

INSTALLATION

2.1 Install Via Pip(recommended):

```
pip install discord-feed-bot
```

2.2 Install from Source(Unreleased):

```
git clone https://github.com/Py-Contributors/discord-feed-bot
cd discord-feed-bot
python setup.py install
```

USAGE

Use as a normal Python module:

```
from discord_ext import DiscordBot
feed_url = ""
discord_webhook_url = ""
sleep_time = 60*20 # 20 minutes

bot = DiscordBot(feed_url, discord_webhook_url, interval=sleep_time)

bot.send_message_to_discord()
```

It will fetch rss feed in every 20 minutes and send new items to discord webhook.

- feed_url: The RSS feed URL to monitor
- discord_webhook_url: The Discord webhook URL to send messages to
- sleep_time: The time to sleep between checking the RSS feed for new items(default: 60*20, 20 minutes)

Requirements

- Python 3.6+
- requests
